Forty-Eight Speeding Autoists Are Nabbed Here During Month

Thirty Chicagoans Are In-
cluded in List, Valenta's
Report Shows.

Forty-eight motorists, who had a supreme contempt for law and order as related to traffic rules, were haled into police magistrate's court here during the month of May, according to the report of Motorcycle Officer Frank Valenta which was handed to the village board in session Tuesday night of this week.

All but three of the cases were for speeding, the fastest driver, according to the report, was one Don Sillerman, a Chicago driver, who stepped up to 55 miles per hour in the village limits. Many others were in quite a hurry, too, as speeds of 35 to 50 miles were quite frequent.

In addition to the speed cases, two drivers had no licenses, one parked wrong and one had liquor. The heaviest fine paid during the month was by Frank Klebenow, 1151 N. Keeler avenue, Chicago, for license violation. For having in his possession state and city of Chicago license plates, presumably stolen, Police Magistrate Geistrup fined the man \$25 and costs. He paid. Six cases were dismissed and a few were continued.

Lake County Guernseys Make Good Milk Record

Highest Producing Individual
Made 88.5 Lbs. Butter
Fat In 30 Days.

A herd of seven grade Guernseys, owned by the Morse farm holds first place in Lake County Herd Improvement work for April with the highest producing individual which made 88.5 pounds of butterfat in thirty days and with the highest herd average, an average made on two time milking and with one dry cow of 43.5 pounds of fat in the same period.

These records are due in part to the feeding of a well balanced ration including a good grade of hay and silage. The concentrate mixture is fed according to production by weighing each feed for each cow.

Laska farm has the next highest producers with an individual making 77.8 pounds of butter fat in thirty days. This cow is a well-bred pure bred Guernsey. This farm with thirty-two cows ranks fourth in the five high herds with an average butterfat production of 31.7 pounds. This is a very credible average for a herd of this size.

Third high cow is owned by George White. The 1662 pounds of milk she made for the thirty days of April test contained 76.1 pounds of butterfat. Mr. White has by careful selection and breeding built up a very good herd of pure bred Holsteins. His herd book will verify this statement.

It was this, Mr. White said, "It is the poor man who should know the production of his cows because it is he who can least afford to feed the boarder cows." What could be more true, more economically sound? Can better records be kept for the cost than are kept in Herd Improvement work? I would that all Lake County dairy men answer these questions to their own satisfaction.

The Cold Spring farm with a herd of eight pure bred Holsteins holds second place with a fat production of 35.6 pounds.

Patterson farm owns both fourth and fifth place cows. These cows on three time milking made 76.1 and 68.5 pounds of fat respectively.

Earl Kane is doing quite well with his herd of twenty Guernseys making a fat average of 32.6 pounds. Mr. Kane realizes the need of careful feeding. He like Morse farm has the concentrates of each meal weighed for each cow.

Horace Kapple with one dry cow has the fifth of the high herds with an average for his nine cows of 31.6 pounds of butterfat.

The average herd in Lake County Number 1 is a herd of 19.6 cows producing in the April test an average of 28.3 pounds of fat for the month. This average would be much higher but feed is scarce and several of the herds are getting timothy hay. Feed cows timothy, it is good for race horses!

BUSINESS CLUB MEETS MONDAY

The regular monthly meeting and dinner of the Antioch Business club will be held next Monday night, June 11, at Harris & Poulos Antioch Cafe.

As headliner on the entertainment program the committee has engaged the services of Jack Ponce, "The Original Andy Gump," an entertainer of note. Incidentally he is salesman for Woodcrest subdivision. There will be other very pleasing entertainment numbers on the program, and these the committee desires to keep to themselves until Monday night, it has been rumored.

Several new members will be present for the first time Monday night. The matter of a permanent headquarters for the club will be among the important things to come before the meeting Monday.

Students, Teachers Are Honored At Recognition Service

The Girls' Glee club, the Mixed Chorus and the High School orchestra represented the A. T. H. S. at the Annual Recognition Service held on Sunday evening at the Methodist church. The audience well appreciated the numbers the chorus and glee club sang, "Snow" and "Waitin' in the Shadows" by the girls' glee club, and "Italia" by the mixed chorus under the direction of Miss Hedvig Rice. The High School orchestra, under the direction of Mr. L. A. Stark played numbers for prelude and offertory. The orchestra truly was at its best in playing these numbers.

Rev. Krahl, in his address, told of the honors the A. T. H. S. has brought to Antioch. Through athletics, music, agriculture, and commerce fields these honors were earned. The wonderful training, given in these departments at our high school under the leadership of the high school's capable teachers, was duly appraised.

DIPLOMAS ARE GIVEN TO TWENTY-SEVEN SENIORS

Fine Program Features The
Exercises Wednesday
Evening.

Twenty-seven seniors last night received diplomas at the thirteenth annual commencement exercises held at the Antioch Township High School. Principal L. O. Bright made the presentation to the largest class that has ever completed the prescribed course at the local school.

Fine Commencement Address

Enumerating many of the things to be sought by Young America as challenges of the twentieth century, President Wm. J. Davidson, of Illinois Wesleyan university, made a very fine and inspiring address to the senior class and the large number assembled to witness the thirteenth commencement exercises. Self analysis, or knowing yourself, where you are as compared to where you desire to be, or the results you want to accomplish, the true heart, trained mind, and a good, useful avocation were named by the speaker as being the important things in life. Characterizing the twentieth century as the greatest century so far in the world's history, Pres. Davidson stressed the importance of one knowing his job in this age of specializing, and pointed out the great desirability of living now instead of in some former century. His address was matter of fact and logical as well as inspirational.

Also having a part in the program were the girls' glee club and the boys' glee club, the orchestra, and Homer Tiffany, class president, who sang two baritone solos.

Present Rhodes Medals

After the presentation of diplomas, Prof. C. L. Kutil, director of vocational agriculture, presented the Rhodes gold medals to Gordon Martin, Morris Brown and Harold Kennedy, the three boys who had the most successful agriculture projects during the year. The medals are given each year by Mr. T. G. Rhodes, of the Chicago Footwear Co., as an incentive to boys in agriculture work in which Mr. Rhodes himself is intensely interested.

Rev. A. M. Krahl gave the invocation and the benediction.

VANDALS LOOT SAFES AT LUMBER YARDS AND SOO STATION

Burglars Get Nothing for
Robbery Efforts Here
Saturday Night.

The strenuous labor of breaking into two safes here Saturday night netted the robbers nothing for their efforts, for not one cent in tangible assets could the vandals find in the safe at the Antioch Lumber & Coal Co. office, nor did they fare any better at the office of H. R. Adams and Co., where after wrecking the door of the safe they found four blank walls again staring them in the face.

The safe at the Antioch Lumber & Coal Co. office was not locked. Here the marauders looted the safe of notes and other papers, which were found near the building the following morning. All the papers were recovered. Damage at this yard probably amounted to \$50. The door of the safe at the Adams yard was badly wrecked and the safe will have to be sent to the factory to be repaired.

Crashing of the cash drawer and the telephone booth at the Soo Line station was also reported but no cash was stolen.

Reports from Barrington, Ill., Monday were to the effect that lumber yards in that city had been visited by burglars also, and that their methods of gaining entrance to the buildings and jamming the safes indicate that they are the same marauders who visited the Antioch yards Saturday night.

Chicago Dentist Opens Office Here

Dr. H. F. Jahnke, Will Give
Up City Practice to Make
Home in Antich.

Dr. H. F. Jahnke, Chicago dentist, has opened offices in the First National Bank Building in Antioch. Dr. Jahnke, eleven years a successful practitioner at 4747 Milwaukee ave., Chicago, spent his first professional day in Antioch last Saturday. During the month of June he has announced that he will be in his office on Monday, Wednesday and Saturday of each week, from 9 a. m. to 9 p. m., but after July 1st, he will be in his office every day. He expects to move his wife and family of three children here as soon as suitable living quarters can be found.

Dr. Jahnke is an American Legion man, a member of the Portage Park post in Chicago. He is dental surgeon for the 331st Field Artillery, U. S. Reserves. In July he expects to go with the 86th division to Camp Meade, Sparta, Wisconsin, for the annual encampment.

BRISTOL MAN SAILS

FOR EUROPE JUNE 1
James Babor of Bristol, Wis., sailed for Europe June 1. He will visit old friends and relatives there for about four months.

Mr. and Mrs. Dan Harris are the proud parents of a baby girl born on Tuesday, June 5.

Principal Employed for Eighth Year

L. O. BRIGHT

Just closing another school year, perhaps the most successful in the history of the Antioch Township High School, announcement comes from the Board of Education that Prin. L. O. Bright has been re-employed for the eighth consecutive year as head of the local school.

The fine high school here is known throughout the state for the achievements of its students in both scholastic and athletic lines, and no small part of this success has been rightly attributed to Prin. Bright. His re-employment meets with universal approval.

COMMUNITY IMPROVEMENTS WILL TOTAL QUARTER MILLION; \$150,000 IS ANTIOCH'S SHARE

Paint Salesmen Travel In An Airplane

Traveling in an "Air King" plane, two paint salesmen, H. B. Achuff, of Wauwatosa, Wis., and R. C. Young, of Peoria, Ill., dropped into Antioch Monday and were noon-day guests of H. J. Vos, of the Antioch Lumber & Coal Co. Pilot Young, former aerial acrobatic instructor with the U. S. army in France, makes his territory regularly in his "Air King". After telling of the high quality of "Morganite" products, and giving Mr. Vos a ride over Antioch, the airmen hopped off for Milwaukee.

Public Improvements In Village Will Cost \$40,000.00

SCHOOL LARGEST INVESTMENT

With building and other improvements estimated to cost \$250,000, Antioch and vicinity has launched into another mammoth building program for the year 1928. Over \$150,000 of this amount is distributed over the village for improvements and building projects, including the erection of many homes, business buildings and the fine new grade school building, now in course of construction by J. E. Sibbey and Son, and which represents the largest single investment in the village, about \$40,000. Next largest building project is the reconstruction of the Corona Pen factory building which has just been completed as a cost of \$30,000.

Village Improvements Planned
Add to the huge sum being invested for private building purposes an expenditure of some \$65,000 for public improvements, including addition to water system, \$23,500, sewer extensions, \$6,000, and contemplated paving and new street projects estimated at \$15,000 to \$20,000, and the total for the village is swelled to over \$150,000.

Among the new business buildings now in course of construction may be named: the new Chevrolet garage on Main street, C. A. Powles building on Victoria, and the Mack's State Line filling station on North Main, besides the four new fronts that have recently been added to stores here.

Many New Residences
Among the new residences are: Art Laursen, eight-room bungalow on North Antioch, Borman residence on Main street, Slosser, Willie, Trieger, and Johnson homes on Spafford street and the new improvements at the Hughes, Webb, and Pullen homes on Main street.

Community Program Great

Building improvements at Paschen-dale, by Chris Paschen, owner, are said to have an estimated cost of \$50,000, while the entire improvement program there is said to represent an expenditure of over \$200,000.

Jerry Horn is remodeling his home in the Grace subdivision on Lake Catherine at a cost of \$8,000, and Contractor Fred Warner is making building and other improvements at the Knorck estates on this lake said to cost \$15,000. W. J. Robinson is the contractor for ten cottages to be erected at Woodcrest at a cost of over \$20,000. M. W. Smith, at Grass Lake, is constructing a number of cottages and now has the third one under way. The new fire-proof garage at the P. H. Joyce home at Fox Lake represents a \$20,000 investment.

C. E. Ruthruff, editor of the Cicero News, is building a fine new home in Feltner's South View Subdivision at Lake Catherine. These and other building projects in the nearby lake community will represent a cost of well over \$100,000, which will boost the community's total building investment to over a quarter of a million dollars.

Contractors Are Busy

C. W. Christensen of Lake Villa is the contractor erecting the Laursen residence. Henry Dreesman of Delavan, brick mason, and Fred Warner, are erecting the Borman home on Main street. W. J. Robinson is building a number of cottages at Woodcrest. J. E. Sibbey & Son, are the contractors for the Antioch school building and they also have the contract for the Joyce garage at Fox Lake. V. B. Dupre is general contractor for the new home for Chevrolet.

First Boxing Show at Palace Friday Night

The first boxing show at the Antioch Palace is scheduled for tomorrow night (Friday at 8 p. m.), when Richard Macek, who yesterday received his credentials as a licensed promoter, will stage a seven star bout card. Jabber Young will be the referee, and the bouts are booked under the direction of the A. A. U. The ring has been erected in the center of the large auditorium and everything is all set for the first big show of the kind ever held in this community.

Potato Puff

Melt 2 teaspoons butter in 1 cup of hot milk, add 2 cups of mashed potatoes beaten until light and then add 1 egg beaten, 2 tablespoons grated cheese. Salt and pepper to taste and again. Bake in a buttered dish until nice and brown.

Sweet Potatoes (Southern Style)

1/2 cup butter
2 tablespoons sugar
Salt, pepper and sugar in casserole. Put butter and sugar in casserole, add a layer of sweet potatoes cooked and sliced lengthwise, season with salt and pepper and pieces of butter. Continue this until the dish is full. Bake in slow oven for 3/4 of an hour.

Cheese Ball Salad

Mash one cream cheese, add 2 tablespoons melted butter, 1 teaspoon cream, a little paprika and 5 English walnut meats chopped. Mold into balls. Place on lettuce leaves. Mix 2 tablespoons cooked salad dressing with 2 tablespoons whipped cream. Drop dressing in teaspoonfuls over cheese balls and dot with plain currant jelly.

Cherry Muffins

1 egg
1 tablespoon sugar
1 1/4 cups milk
1 cup flour
1 cup corn meal
4 teaspoons baking powder
1/2 teaspoon salt
1/2 cup canned, red, pitted cherries
4 tablespoons shortening
Beat the egg, add sugar and milk. Add the flour, corn meal, baking powder and salt, sifted together. Then add cherries, cut in halves, and the melted shortening. Bake in muffin pans in a hot oven.
Time in baking, 25 minutes.
Temperature, 400 degrees.
Recipe makes 10 muffins.

Peach French Toast

Make French toast, and place on each slice a peach half, canned, which has been dipped in flour and sautéed in butter to a golden brown. Serve with the following sauce made from the peach syrup.

Sauce

1 cup peach syrup
1 tablespoon flour
1/4 cup water
1 tablespoon lemon juice
Heat the peach syrup, mix the flour with cold water and add to syrup. Cook until thickened, stirring constantly. Add lemon juice.

Tapoca Puffs The Omelett

Puffy omelettes do tell but we have found a way to make them hold up for some time and thus stand the trip from the kitchen to the table despite delays in serving. We cooked two tablespoons of minute tapoca in three-quarters cup of milk until clear, then beat the yolks of four eggs with the seasoning into this and last of all fold in the whites. Apart from the omelette staying up, the eggs are extended, and the flavor is changed interestingly.

Cream Puffs with Fruit Filling

1/2 cup butter or margarine
1/2 cup water
1/2 cup flour
Pinch of salt
2 eggs
Put butter and water in a saucepan and bring to boiling point. Add flour and salt and stir well until mixture forms a ball and comes away from the sides of the pan. Remove from fire and add unbeaten eggs, one at a time, beating each in thoroughly. Drop from spoon, making them as nearly round as possible. Bake in a moderate oven and fill with the following fruit mixture.
Time in cooking, 45 minutes
Temperature, 350 degrees
Recipe makes 6 cream puffs

Filling

1 cup cream
1/4 cup powdered sugar
1-3 cup crushed pineapple
1-3 cup canned apricots
1-3 cup canned cherries
Whip the cream and add powdered sugar. Drain the fruit and cut cherries and apricots in small pieces. Add to the whipped cream.

Sunlight in Childhood

Has Bearing on Crime

Chicago.—Lack of the ultra-violet rays of sunlight during childhood was advanced as a possible cause of criminal tendencies by Dr. W. T. Boyce, professor of biophysics at Northwestern University. In an address here, Doctor Boyce said disfigurements and nervous systems are affected by light as well as physical processes.

A MATCHING CAPE WITH EVERY
STREET FROCK IS FASHION'S LATEST

PLANNING a "made-to-order" street frock are you? Be sure to see to it that your tailor or dressmaker styles it with a cape. Decided to buy a "ready made"? Of course you will select a cape model, for capes are the "last word." Perhaps you are of the home-sewing kind, and are thinking of making it yourself, this street frock which is to be included in your spring and summer wardrobe. Of course you will want a pattern which features a detachable cape. So in making your calculations as to how much material needed, remember the cape!

The model in the picture is suggested to the home dressmaker as a style well worth copying. Your "nearest dealer" can no doubt supply this pattern or one similar. It is just such a wearable type as one needs for the informal hours of the day. While the dress is just a simple one-piece, yet it carries "at a glance" genuine style conviction—in its narrow belt, in its skirt which attains fullness through its cluster of stitched-down points and most of all in the fact of its being topped with a cape. With the cape this ensemble answers the requirements of a street costume, without the cape one is conscious of being clad in a most charming semi-tailored summer-day frock.

Observe how cleverly the long ties of self fabric are drawn through two rings at the throat. One might use jade rings, and what a fine color touch they would give to a beige costume. By the way, the material for this attractive ensemble is flat crepe, crepe also being the name of the weave used in this instance.

Which leads to a very important and a very interesting theme, namely that of silk as a favored medium for the tailored ensemble suit or coat. One sees many handsome three-piece suits made of navy crepe or crepe-satin, or flat crepe. Then, too, the separate silk coat, is extremely smart. Very pronounced is the cape theme in

connection with the styling of these coats, especially popular models being of black moire, bengaline or crepe, severely plain save for the presence of the cape which expresses fascinating novelty.

Many youthful silk cape-frocks are fashioned in this wise; the cape and skirt are of the solid-colored crepe, the blouse and cape lining being of an exotic print.

Unusually handsome wash silks are shown this season. Some of them have a discreet mixture of wool. In fact, these weaves look very much like the ensemble or dainty kasha cloth. They tailor to perfection, coming in charming tones and tints as they do. They are ideal for summer time street frocks. Made up sleeveless, adding a cape or separate coat they insure smart costume through out the hours of the day.

Cape frocks are especially tuned to schoolgirl needs. With the plaited silk skirts, one can have many blouse changes, and when the cape is worn the suit presents a pleasing street type.

MANY USES FOR OLD
PHONOGRAPH NEEDLES

Old phono-graph needles of the metal style will sing songs of other varieties when they have finished their tasks on the phonographs. There is no tack made which is so soft and so practical for use in framing pictures as is the phono-graph needle. It has no rough edges or top to injure the back of the picture or mat, and its smooth, sharp point is easily pushed with the screw driver into the wood frame to hold the picture in place.

Needles placed in a fancy glass or china bowl take the place of the shot which holds the quilt pen on the desk. Both wooden and metal needles may be used for this purpose.

To clean a milk bottle in which the milk has soured and caked on the sides, a handful of steel phono-graph needles, shaken up and down in the bottle, will do the work in a few seconds, scraping and cleaning it off. Warm water with a little soap added to the needles, of course, is necessary.

A spark plug held at the top of a test tube in which there is some gasoline and a handful of phono-graph needles will be quickly loosened of its stubborn carbon after a few shakings.

RELIEVING PAIN WITH
A READING LAMP

A small reading lamp has great possibilities in its light rays, as a reliever of pain. The rays of light seem as powerless to cure pain as the air to carry the radio message until one has actually tried them, as they are now being resorted to in hospitals, in sanitariums, and in the tuberculosis camps for the cure of the disease.

While large wattage lamps are necessary for deep therapy, to produce general bodily reaction, a small nitrogen reading lamp will relieve the local rheumatic pain, or the twinge of neuritis, especially if the rays be brought down within ten or twelve inches of the area, and a cloth covers the lamp to concentrate the rays on the aching spot.

Indicate Oil Deposits

The geological survey says that an anticline is an upfold in rocks and such a fold in deposits that are buried beneath formations of more recent geologic age that were not subjected to the folding cannot be detected at the surface. Such anticlines, called "sub-surface" are regarded as favorable to the accumulation of oil and it is for this reason that oil prospectors endeavor to locate such structures.

Section V. It shall be unlawful for any person, firm or corporation to maintain, operate or conduct any business or occupation for which license may be granted hereunder in an unsanitary condition or detrimental to health. An unsanitary condition shall be deemed to exist when any drugs, medicines, foods, beverages, or any articles and things intended for or used for human consumption in the process of production, preparation, storing, selling or distribution shall not be securely protected from dust, dirt, flies or other foreign substance or injurious contamination or if refuse, dirt, or waste are allowed to accumulate in or about the premises so licensed or measures, containers, utensils or apparatus of any kind or character used in or about the business so licensed are not kept clean or if the clothing of operatives or employees in handling or conducting the business is not clean. All businesses or occupations licensed hereunder shall be so conducted as not to be injurious to the health of the public or of the particular individuals engaged in the business or affected thereby. The Village Marshal or the Commissioner of Health or some other person that may be designated so to do from time to time and as often as may be necessary or as may be directed by the President so to do, shall inspect all measures, containers, weights, weighing machines and other means employed in the conduct of the particular business and shall inspect and examine the place or places of business licensed and all buildings, rooms, enclosures, vehicles, or other articles and things used, in about or in connection with said business. In addition thereto inspection and examination shall be made of the place where ice may be gathered, milk may be procured, kept or stored and other food stuff or beverages manufactured, produced, or stored and all means, vehicles and other articles and things used in and about the transportation, delivery, sale and distribution thereof.

Section VI. Every license issued under the provisions of this ordinance shall expire on the 30th day of April following its issuance and the license fees herein fixed shall be the annual license fees and shall be payable in advance before the issuance of licenses. Any applicant for license for the unexpired portion of the year shall pay the license pro rata according to the unexpired portion of such license year providing, however, no license shall be issued for an amount less than one-half of the annual license fee; providing further however that for the fiscal year beginning May 1, 1928, and ending April 30, 1929, licenses shall be issued for the balance of such fiscal year at and for ninety per cent of the annual license fee as herein stated. The license year shall begin on May 1st, of each year and expire at the end of the 30th day of the following April.

Section VII. All licenses issued in accordance with the provisions of this ordinance shall at all times be kept posted in conspicuous places on the premises where the business thereby authorized, is conducted. For convenience and to better carry out the terms of this ordinance, license tags, plates, cards or other evidence may be provided by the Clerk of the Village to be carried by the persons licensed or attached to the vehicle or other article or thing to be used in or about the business so licensed.

Section VIII. Every such applicant on compliance with the requirements of this ordinance and the payment in advance of the fee herein provided, shall receive a license under the corporate seal of the Village, signed by the President and attested by the Clerk and for the period stated therein.

Section IX. Any failure on the part of any person, firm, or corporation to comply with the terms of this ordinance shall subject the offender to having the license revoked by the President of the Village.

Section X. This ordinance shall not be construed as authorizing the sale of intoxicating liquors in violation of the statutes of the State of Illinois nor in excuse for or in mitigation of any failure of any person so licensed to comply with the statutes of the State of Illinois in all particulars.

Section XI. No person, firm or corporation licensed hereunder shall sell, offer for sale or keep for sale any food, condiment, confection, beverage or any article or thing intended for or used for human consumption which is unclean, unwholesome, tainted, putrid, decayed, adulterated, poisonous, infected or in any other manner rendered unsafe and wholesome for human consumption. For the purpose of this ordinance any such article shall be deemed unwholesome for human consumption if the same has been contaminated by flies or other insects, vermin, dust, dirt or other foreign contamination, or if they contain any poisonous or adulterous or injurious ingredient in kind and quantity so as to render same injurious or detrimental to health or if they contain in whole or part of any uninspected and not passed food product.

Section XII. No person, firm or corporation shall expose for sale, sell or offer for sale to any person or corporation, directly or indirectly, any cigars, cigarettes, or tobacco containing opium, morphine, or any other deleterious or poisonous drug or drugs and it shall be the duty of the persons licensed to sell tobacco to furnish upon such inspection, sample of such products to be analyzed under the direction of the Village.

Section XIII. Any person, firm or corporation who shall violate any of the terms of this ordinance or shall fail to comply therewith shall be fined not less than Ten Dollars nor more than Two Hundred Dollars for each offense and a separate and distinct offense shall be regarded as committed each day on which said person, firm or corporation shall continue any such violation. In addition to the penalty herein provided for the license may be revoked as is provided in preceding section hereof.

Section XIV. The validity of any part or portion of this ordinance shall not affect the validity of any other part or portion thereof which can be given effect without such invalid part.

Section XV. All ordinances or parts of ordinances in conflict herewith are hereby repealed and this ordinance shall be in full force and effect from

winning May 1, 1928, and ending April 30, 1929, licenses shall be issued for the balance of such fiscal year at and for ninety per cent of the annual license fee as herein stated. The license year shall begin on May 1st, of each year and expire at the end of the 30th day of the following April.

HISTORIC LANDMARKS SAVED BY ANNAPOLIS

Maryland Capital Sets Example to Other Cities.

Washington.—American architects fostering a movement to save landmarks of American communities, point to Annapolis, Md., as a city which has preserved many mementos of its past.

In a communication to the National Geographic society, Dr. Gilbert Grosvenor, its president, describes some aspects of the colonial capital which, in part, follows:

"Annapolis has been preserved as our country's most truly colonial city. You may wonder about this fine old community and feel that you are living in those dramatic days when the little city on the Severn had a major part in shaping the course of the nation's history.

"Going down to the water front, you can pick out a sailing craft and vision the square-stemmed, 90-ton brigantine, Peggy Stewart, which, on October 15, 1774, arrived at Annapolis from England with an assorted cargo, including 37 packages of tea. Anthony Stewart, the owner of the brig, was a Marylander who had signed the nonimportation agreement. In order to unload the bulk of the cargo, he rashly paid the duty on the tea.

"When he was called to account he begged to be allowed to burn the tea publicly. But he was not to escape so lightly. Finally Stewart purged himself by undertaking to burn his brig, with the tea aboard.

"According to John Galloway, an eye-witness, the majority would have been satisfied to burn the tea; but, however that may be, it was no act that fired the colonies and cast Maryland's lot irrevocably with the forces of freedom. A picture of the firing of the Peggy Stewart hangs on the walls of the statehouse.

Why Carroll Identified Himself.

"Charles Carroll headed the delegation chosen at Annapolis to represent the province in the Continental congress.

"When it came his turn to sign the Declaration of Independence, there was some bantering remark as to whether the signers would hang singly or hung together, if the Revolution should fail.

"Some one added that Carroll would have a chance to escape, because there were so many Charles Carrolls that the British would not know which to seize.

"Thereupon Carroll reached for his pen and added the words, 'for Carrollton,' with a remark that now they would have no trouble to identify him if he were ever called upon to forfeit his life for the part he played in the cause of independence. Carroll outlived all the other signers, dying November 14, 1832, at the age of ninety-five years.

"Begin in 1772, the Maryland capital is filled with memories of those eventful years. Scores of pictures that grace its walls are of that famous band of soldiers, the Maryland line—companies, regiments, and brigades of which fought on every major Revolutionary battlefield from Massachusetts to Georgia.

"The voice of General Washington himself comes down the years, as he told Ramsay at Monmouth that 'if you can stop the British for ten minutes, until I can form, you will save my army.' He held them thirty minutes! And we hear General Greene saying of a charge by the Marylanders at Eutaw Springs that 'it exceeded anything I ever saw.'

"Maryland withheld neither men nor money that the colonies might be free, and no state, in proportion to population and wealth, contributed more of either.

Contribution to Union.

"While her soldiers were fighting so valiantly, her statesmen, meeting in the halls of the old statehouse at Annapolis, originated a pioneer thought that prevented the colonies from falling apart after their victory. With great foresight, the Maryland leaders realized that the harmonious relations existing between the thirteen colonies must inevitably be destroyed, after the triumph of American arms, by bitter disputes arising as to the ownership of the vast region north-west of the Ohio, east of the Mississippi, and south of the Great Lakes.

"Knowing from boundary experiences with her neighbors the enmity that disputes about land engendered, Maryland, though giving unsparingly of men and substance to the Continental armies, refused to sign the articles

MRS. SIBLEY ENTERTAINS MOTHERS' CIRCLE TUESDAY

The Mothers' Circle met with Mrs. Nason Sibley Tuesday afternoon. Mrs. Honsor had charge of the program, the subject of which was, "Should children be paid". Several of the ladies read papers concerning the subject and the group discussed the topic in general. The ideas on paying children for doing errands and giving them allowances were expressed both for and against. The Mothers' Circle has been organized by a group of ladies interested in the training of children and they invite all the ladies of the community to come to their meetings. They meet the first Tuesday of each month.

of confederation unless assured that vacant Western lands would be used to form new states and not to enrich enormously any individual state.

"For a long time Maryland raised her voice alone; but gradually the other states were convinced of the fairness and wisdom of her stand and the necessity of the program she urged, if any lasting nation were to be the fruit of the Revolution. New York, Virginia, Massachusetts and Connecticut generously ceded their territorial claims to the nation.

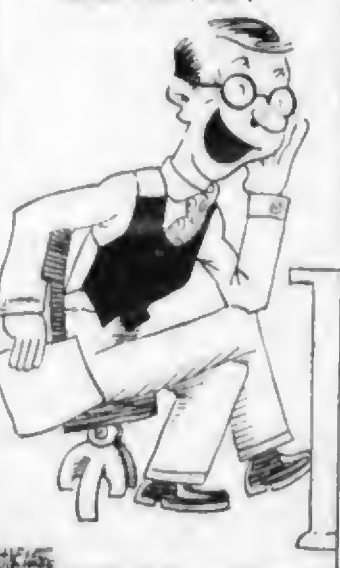

"But Maryland's clear-sighted and effective course had achieved something far greater than merely removing the cause of future strife between jealous colonies; by her insistence on the creation of a national domain she welded the most effective bond that could have been devised for a lasting union. When peace came the thirteen states found themselves joint owners of this great territory, and their common interest in developing their joint property and parceling it out into new states held them together.

Distance Lends Smallness

What is near is always impressive. A cottage two yards away can eclipse the sun. Reason, however, demonstrates that the sun is really larger than the cottage, though considerably further away from ourselves. What reason can do to correct our perception of things in space, it can do equally effectively for our perception of events in time. A SUIT OR AN ENSEMBLE? CHOOSE EITHER OR BOTH AND BE IN FASHION

WHICH shall it be, a two-piece suit or a several-piece ensemble, for the all-around utility costume? Apparently it is not the intention of the mode to answer this question, leaving it for women of fashion to decide for themselves.

Which, of course, keeps everybody guessing, more especially since suits are running so many unusual and beguiling features this season and as for ensembles, well, where is she who can resist their lure? So here we are, back to where we started—suit or ensemble, which shall it be?

As the matter now stands, statistics show that suits are taking especially with the younger set. The slim, lithe youthful figure, that can wear a suit to perfection, and knows it can, is coming out in either a classic tulle, choosing between navy or oxford gray, the latter being a new color "fad" this season, or if not this then a tweed two-piece which glories in a list of "tricky" details, like the suit of cocoa-brown tweed, two views of which are here given. Upon giving close scrutiny to this nifty tweed suit, one discovers a belt across the back of the jacket only, a stiched yoke and slot-seamed pockets, each of which express a note of ultra-chic. There's a kick plait at the back of the skirt, had you noticed that? Oh, there's no doubt about it, suits this season are bringing a mighty challenge to the much exploited ensemble costumes.

If you are an ensemble enthusiast, and where is the woman who is not, look at this one in the picture to the right. It's almost a complete daytime

wardrobe in itself. There's its seven-eighth length coat for instance—it will serve admirably as a separate wrap, the whole spring and summer through. The skirt is attached to a bodice and that means it can be worn with one blouse, then another and another. That's why an ensemble is one economical buy, at any price. It is so adaptable to mood and occasion.

Seeing that it is fashionable for one's blouse to match one's coat lining, the blouse and coat lining of gay-patterned crepe which enlivens this navy cloth ensemble does that very thing. It is significant that this costume be carried out in navy, for navy is really a very smart color this season. Especially is navy a favorite with the better dressed class. Both separate coats and ensembles carried out all in navy are quite popular at this moment.

So outstanding is navy that hats, shoes and pocketbooks are in this color, carrying out the ensemble theme from head to foot. The navy favored is an animated blue, the tone that is so generally becoming.

Poor Kin

Caruso was a common sort of man, born with a glorious voice, which made him famous and rich. In the days of his prosperity, he had 21 relatives living at his house, and they nearly drove him crazy. Caruso was less satisfactory as an artist because of his poor kin; they may have killed him at a time when he still had a good deal of value in him. Every useful man is hampered by poor kin.—E. W. Hen Earns Twice as Much as Stenographer

Vancouver. — Matzie, the world's champion hen, made twice as much money laying eggs for the University of Columbia last year as the average stenographer reaps annually for hunting out letters on the type writer.

Earnings of the famous White-Leghorn pullet totaled \$2,225 for 1927, according to Prof. E. A. Floyd of the university. Of this total, the proceeds from hatching eggs represented \$925, while the sale of breeding stock, which were progeny of the hen, brought \$1,300. Matzie broke all records in 1926 by laying 351 eggs in a 365-day test.

Marines' Good Behavior
Makes Friends in China

Tientsin.—A foreigner's treatment of the Chinese coolies with whom he deals is taken by old-timers in China as a good test of that foreigner's character. Americans in Tientsin therefore have taken pride in the fact that not a single case has been reported of trouble between rikish pullers and the 3,500 American troops here—3,000 marines and 500 of the Fifteenth Infantry—since the marines arrived eight months ago.

Clashes between foreigners and rikish coolies are not uncommon in the Orient. Some passengers are sticklers for the legal fare while many of the coolies are truculent. The marine and the rikish boy, however, are good friends. The coming of the Third marine brigade has proved a blessing to the thousands of rikish coolies who swarm Tientsin streets seeking a precarious living. Last winter hundreds of them spent days on the bitter cold streets without picking up a fare. Now there are hardly enough rikish to meet the demand. And the American leatherneck or doughboy is not disposed to argue about a few cents after the Chinese fashion; hence new prosperity for the rikish boy.

John V. A. MacMurray, American minister, expressed official praise over the behavior of the men in Tientsin, saying that it had "contributed toward that better understanding which we all hope to see grow and develop in China."

Millikan Finds Evidence
of Continued Evolution

Pasadena, Calif.—Discovery of evidence that the process of creation is going on in the heavens, and the earth, instead of disintegrating, as long has been believed, is going through an endless cycle of evolution, was announced here recently by Dr. Robert A. Millikan, noted scientist.

Doctor Millikan's announcement, made at a meeting of the California Institute of Technology, said while his experiments had not been completed and should not be taken as final, "we may have some confidence in the conclusion."

The findings of Doctor Millikan indicated the atoms which form oxygen, silicon, magnesium and iron—the elements which make up about 95 per cent of the mass of meteorites and a similar proportion of the earth—are being constantly created in the heavens and shot with terrific speed into the body of this planet.

The cosmic rays are held to be energy which escapes in the process of formation of these atoms.

Almanacs Long in Use

Almanacs date back to early civilization. It is known that the Greeks and Romans had them. Some of the oldest almanacs in existence were published during the Thirteenth and Fourteenth centuries. Purbach, the astronomer, is said to have published the first printed almanac in 1450.

This First Lady Knows
Her Eggs and Buys 'Em

Raleigh, N. C.—As the wife of a man who has spent many years in the public life of Washington and North Carolina, Mrs. Angus Wilton McLean, first lady of the Old North state, has become known as "the perfect hostess."

Prior to becoming chief executive of North Carolina in 1924, Governor McLean served as assistant treasurer of the United States and director of the War Finance corporation and held other responsible official positions. During that period Mrs. McLean's social affairs, attended by persons of the highest rank in government and international circles, have become known for their quiet dignity, originality and interest.

"Official life? Why, I like it very much," she says. "But not quite so much of it. I should like more time to be with my three children and to go about my own personal affairs."

Mrs. McLean personally manages the executive mansion, even to the marketing. Since she became its mistress, the social life of the great home has been revived with more interest than in many past years.

Modify Farm Methods
to Halt Corn Borer

Washington.—In a survey of methods to keep the European corn borer in check, Jesse W. Tapp of the federal division of farm management has found that farmers in the invaded portions of Ohio and Michigan already are modifying their methods of handling corn.

Tapp says some are going so far as to consider the reduction of their corn acreage, at least for the present.

The extent to which cropping systems will be changed, Tapp believes, will depend on the advantage of corn over other crops, either for feed or sale, and the ease or difficulty with which methods of corn production may be modified, so as to prevent borer infestation reaching proportions that will cause serious commercial damage.

MILLBURN GRADUATES TWO AT ANTIOCH AND THREE AT GURNEE

Miss Minto Gives Farewell Address at Church Sunday Evening.

Several from here attended the Commencement exercises at Antioch and Gurnee Wednesday evening. Miss Helen Neuhous and Frank Pawkowsky were among the twenty-seven graduates from Antioch, and Misses Doris Jamieson and Robert Hook and Arthur Slocum were the graduates from Gurnee.

Mr. and Mrs. George Follet and daughter of Libertyville, Mr. and Mrs. Barney Trieger, Mrs. Arthur Trieger, Mr. and Mrs. Phelps of Antioch, Andrew White, Mr. and Mrs. D. G. White and Miss Cora White of Grayslake visited Millburn church on Sunday to hear Miss Una Minto in her farewell talk.

Miss Minto arrived home last June on a year's furlough and has been busily engaged in the interests of Missions while at home, speaking in every town in her own county, and in hundreds of churches in other states, but is eager to get back to her post in Angola, Africa. Her many friends, both old and new, wish her well, as she returns to her chosen field of service.

Mr. and Mrs. Sid Hook, Mrs. Cora Studer and daughter of Gurnee spent Tuesday with Mrs. W. M. Bonner.

Mr. and Mrs. Schuyler Denman and son of Waukegan and Mr. and Mrs. Edwin Denman and children of Gurnee spent Decoration day at C. E. Denman's.

Mr. and Mrs. E. A. Martin were Chicago shoppers Friday.

Mrs. Louis Schwicht and baby daughter are spending a few weeks with her parents, Mr. and Mrs. John Choje.

Mr. and Mrs. Howard Garby and daughter of Chicago spent the week end at Robert Bonner's.

Mr. and Mrs. Ed Gillings, Miss Ruby Gillings, Mr. and Mrs. Ray Harmer and children of Waukegan were Sunday callers at W. Bonner's.

Mr. and Mrs. E. A. Martin entertained Mr. and Mrs. Fred Achen and sons of Kenosha Sunday.

Mr. and Mrs. E. N. Cannon of Pasadena, California, arrived Monday for two month's visit with their children in Lake County and Chicago.

Mr. and Mrs. Laelle Bonner and children called on Mrs. Mina Gilbert at Waukegan Sunday.

Miss May Dodge of Peoria spent the past week with her cousins, the Bonner families.

Miss Alice Hauman returned Tuesday from DeKalb Normal for a short vacation before starting the summer course.

Mr. and Mrs. Carl Newman of Boulder, Colorado, are spending a month with the latter's sister, Mrs. J. S. Denman and other relatives.

Miss Ruby Gillings returned Saturday to her brother, L. E. Gillings' home, after several weeks visit with her sister, Mrs. Frazier Hollenbeck of Chicago.

Joe McDermott returned Wednesday to the Rosenthal home, having spent the winter with his mother in Rochester, Minn.

Mrs. Lenore Sage of Chicago visited her cousin, Miss Mary Eichinger the past week.

Charles M. Gorham of 419 West street, Waukegan, passed away at his home Monday morning at the age of 80 years. The funeral was at the home Wednesday afternoon with burial in Millburn cemetery.

University's History

Columbia university was founded in 1754 as King's college by royal grant of George II, king of England, "for the instruction of youth in the learned languages and the liberal arts and sciences." The Revolutionary war interrupted its active work, but in 1784 it was reopened as Columbia college. In 1912 the title was changed to Columbia university.

Eleven Years Since Stern Call to Arms

The decade that for Americans on today the World war has gone trooping down the corridor of time.

Eleven years ago the call to arms was shrilling in every town and hamlet under the Stars and Stripes.

"The war resolution passed the house at 3 o'clock this morning," say the following records.

Already it had cleared the senate and the house roll call in the early hours of the new day showed 373 to 50 for the war declaration, with every amendment to limit the powers of the President in the fight or to withhold American troops from the battlefields of France sent down in overwhelming defeat.

Already, too, the President's call for the first \$1,000,000,000 for the war chest lay on the desks in congress and army and navy orders for mobilization of the first 2,000,000 young Americans for the struggle waited only for the President's command.

That let loose the mobilization orders for the army, navy, marine corps, coast guard, National Guard and all reserves. Already the recruiting offices were swarming with eager volunteers.

The 11 years since that day—years of battle, of victory, of restless and fermenting post-war differences—have brought to the grave all three of the men whose names are written on the war resolution—Wilson, Marshall and Clark.

Brought to Grave.

Only a bare handful remain to struggle with the trefful aftermath of war. Gen. John J. Pershing, his years of active service ended, presides now over the commission of American graves in France, busying himself with affairs of that legion of the army—that was, who will never be mustered out or come home again.

Clemenceau, the Tiger of France, heavy with years, dreams away the days in peace, remote from public affairs; "Papa" Joffre, the rock of sturdy courage on whom France rallied in the bitter first days of battle, pipe in mouth takes his ease, careless of his great honors in the placid contentment of his home.

Haig, England's dashing cavalryman, who saw it through from Mons to the Marne and back again to Mons and victory, is dead. Lloyd George, the little Welshman, England's war pretuler, sits with politics at home that are small beside the great stakes he played for in the war with all the might of England at his command.

Toll of Years.

Not far away, as the crow flies, William of Germany lives his latter days in exile and seclusion.

Name by name, the years have taken toll of them. Only those two master soldiers, Hindenburg and Foch, go on in the heat of great post-war problems, Hindenburg as President of the war-born German republic; Foch still France's most trusted son in the hour of peril.

The 11 years have seen vast changes in the men and the material with which the great war was fought. There remain unknown in the graves of France more than 1,000 Americans killed in battle, while another 1,100 are still unaccounted for; surplus war supplies aggregating an original cost of more than \$3,000,000,000 have been sold or transferred with a return to the government of around \$100,000,000, and the wastage by death among the 3,000,000 men discharged from the army in 1919 as physically fit to serve again, has made heavy inroads on the trained veterans on whom the country can rely.

During the period, the great army has been absorbed into the peaceful business of the country, but of its 100,000 wounded who came back, a force comparable to the small peacetime army at home still under treatment at the hospitals of the Veterans' bureau.

The Aftermath

We traveled in the print of older wars,
Yet all the land was green,
And love we found, and peace,
Where fire and war had been.

They pass and smile, the children of the sword—
No more the sword they wield;
And, O, how deep the corn
Along the battlefield!

—Robert Louis Stevenson.

Legion's Tribute to Fallen Comrades

A famous correspondent, Junius B. Wood, of the Chicago Daily News, said of the pilgrimage to Sureresne made by the American Legion when they visited France last year:

"High on a green hillside, behind serried lines of white marble crosses, the sweetly solemn notes of 'taps' echoed from an army bugle. The sun broke through the clouds, and France and America paid honor to the 1,507 American soldiers and sailor dead in Sureresne cemetery, three miles outside the western wall of Paris.

"A color guard lowered four American flags and five Legion standards ran-

A home town enterprise backed by national experience

There are twenty-four Bell operating companies devoting their energies to telephone problems throughout the United States. One of these is the Illinois Bell Telephone Company. It has 30,000 men and women—friends and neighbors of the other people in their towns—working to maintain the best standards in telephony now known.

In New York, in the American Telephone and Telegraph Company and the Bell Telephone Laboratories, are 5,000 persons, including scientists, engineers and consultants in management, engaged in discovering better apparatus and better ways to do things.

The Illinois Bell Telephone Company with its 30,000 employees has the use of all that this group of 5,000 in New York discover and perfect. Likewise the twenty-three other operating companies. Behind every telephone is the national organization for developing the telephone art.

Censorship in China

The kitchen god of the Chinese household is believed to ascend to heaven once a year to report the family's doings, and on this anniversary toffee is stuck on the mouth of the god to insure the report being incoherent.

ALASKA AIR SERVICE COVERS 300,000 MILES

Costs About the Same as Dog Sledding.

Seattle, Wash.—Three hundred thousand miles of flying, 1,000 passengers and 20,000 pounds of freight transported by air without loss or injury. This record, which might be notable if made on a regular run in a temperate climate with full airport and emergency landing facilities, was reported recently by George E. King and Joseph Crosson of the Fairbanks Airplane corporation.

Fairbanks City in Alaska is near the center of that supposedly frigid territory; and it was in Alaska, with its jagged mountains, white in winter; its rivers of ice and its barren snow blanketed tundra, that this human and mechanical accomplishment was made, sometimes in a temperature of 50 degrees below zero.

Operating Three Years.

The Fairbanks Airplane corporation has been operating a flying service in Alaska for three years. It is now being reorganized under a new name with additional equipment. Until now its equipment has been one Fokker with a B. M. W. motor and room for pilot and six passengers, one Hispano-Suiza Swallow for pilot and two passengers, and a J. N. 4 D. of the same make, with a carrying capacity of pilot and one passenger.

Seven months of the year the planes are equipped with skis. The rest of the year being mild, wheel landing gear is used. Except for two weeks during the spring when the snow is melting, flying is continuous. Most of the year there is good visibility and little fog or sleet, two of the greatest enemies to aviation. The longest of the hops is about 400 miles.

So far no regular schedules have been adhered to. King says that users of air transportation in Alaska calculated that journeys which by other available means of transit would take a week could be covered in an hour by air. The rate has been \$1 a mile. "It costs just about as much to travel by dog sled," King added, "after paying for dog sleds, supplies, the outfit and for the guide. The cost is the same by air, but days or weeks of time are saved."

Churches

St. Ignace's Church Notes

Episcopal
Kalendar, 1st Sunday after Trinity.
10:30 a. m.—Morning Prayer, Instruction and Sermon.
10:30 a. m.—Junior Church in the Guild Hall.

For the summer vacation period

try uses air transport. Alaska's main business is minerals and furs. To get from Fairbanks to Nome or Bethel or to Whitehorse in the Yukon, a prospector by land transit would be from six weeks to two months on the way, encountering hazard and hardship. King or Crosson or Carl Elison, famous Arctic flyer and chief pilot of the company, will take him to his destination in seven and one-half hours.

A remote prospector whose claims pay may have a considerable quantity of placer gold and none of the things it will buy. An airplane takes the gold to Fairbanks or Juneau and brings back supplies in exchange or banks the gold. Business men who need to go from point to point now go by plane. Trappers make use of it not only to transport themselves but their valuable mink and silver fox pelts. During the months when fur is being sent south for the Christmas trade, air transport is of great value to trappers. If they cannot deliver their bags to market in time for the busy season they lose money.

4-H Club Boys on

Tour at U. of Ill.

Gordon Martin and Morris Brown of the Antioch 4-H Club are attending the 4-H Club Conference and University Tour at the University of Illinois this week. They are accompanied by H. G. Glickerson of the Lake County Farm Bureau.

The trip was won by the two boys last fall when they won second honors in a demonstration at The Central States Fair at Aurora. At a meeting Tuesday Gordon Martin was elected president of the local club; Homer Edwards, Vice President and Robert Hughes secretary and treasurer.

The local club has thirty members and is under the leadership of C. L. Kotil, local instructor of Agriculture.

the Church School will combine with the regular Sunday service of worship at 10:30 a. m. in the church. It is hoped that this will help to bring back the "Family Pew" of old and have father, mother, son and daughter all in church at the same time. The younger children will have their own primary service in the Guild hall.

We are very sorry to lose our organist and choirmaster, Mr. George Shirley, who is returning to England this week. Pax vobiscum.

Sir Francis Bacon was right when he said that all political questions are moral questions and all moral questions are religious questions. This universe is a cosmos and not a chaos. Law and order spring from true religion and without religion there would be no morality as we idealize or know it. Did you ever think of that. The Christian church strives to cooperate with all clubs and organizations that present an opportunity for intelligent leadership towards higher ideals and that strive to awaken the public conscience with this fact in mind that only in religion is that ideal of morality ultimately embodied. Hence the absolute need of the Christian church founded to promote the ideals of Jesus. Is it nothing to you or do you just never use your thinker placed on top of humans by a beneficent Creator. Did you ever take time out to wonder what it was all about? If not why not?

Methodist Church Notes

The second Sunday in June is designated as Children's Day in the Methodist church. Since 1864 the day has been set apart to think on the great problems of child life and especially youth which is the foundation upon which rests the future of every nation. It is a well known

fact that practically all institutions of higher learning in the United States were founded by ministers who had the vision of the future need of America. Time has proven the wisdom of their actions, our land is covered with colleges and universities, affording every boy and girl in America the opportunity which is coveted by youth throughout the world, of securing for themselves an education, the greatest gift of man. Methodist ministers have had a great part in this work as is evidenced by the Methodist Universities and colleges. 44 in all, together with 12 professional schools, 30 secondary schools and 17 schools for negroes. A part of the Children's Day program is the taking of the student fund offering which is for the direct purpose of creating a fund whereby students in any colleges may borrow without money up to \$100 through his course of four years, without interest until after graduation.

The morning program of worship will be given over to the Church School, the Primary and Beginners departments will have an active part, you will want to hear them.

June 14, is flag day, the church will honor the day next Sunday with a very special service at which the ladies of Monroe Fortress No. 3, Daughters of the G. A. R. will present the church with a beautiful American flag and standard for the church auditorium. Mrs. M. Felter will make the presentation. Patriotic music will be sung and Rev. A. M. Krahl will give a Flag Day address.

Watch for date of the demonstration of the Chambers fireless gas range at the home of Mrs. A. G. Watson.
